SECTION 5.05 CLEANOUT ACCESS PIPE REQUIREMENT

(N) Any Person connecting to the Wastewater Sewage collection system of the Utility after October 31, 2000, other than a connection involving a non-gravity sewer system (grinder pump), shall install a cleanout access pipe. The cleanout access pipe shall be located outside of the residence or building to be serviced, and shall be installed at a point within two feet of the foundation wall of the residence or building. The diameter of the cleanout access pipe shall be not less than four inches, and shall have a screw-in cap or other mechanical device for closure approved by the Utility. The customer shall be responsible for the cost of the initial installation, and for the cost of maintaining and repairing the cleanout access pipe. The Utility shall have the right of ingress and egress over the property of the customer in order to access the cleanout pipe in connection with the operation and maintenance of the Wastewater Sewage collection system.
